

Do not hurt animals (This guy goes nuts for nuts!!!)

Humans are the most dangerous thing that ever lived on the planet!!!!!!!!

People are the smartest

We have weapons !!!!

We have built many things

They have a hard enough life

They have to be running for their life A lot

They don't have a shelf for their food

They travel miles by foot or fin

They probably want to run free too!!!

We train them and make them do what we say which is like telling a human to run for 20 hours a day

They deserve freedom too!!!!!!

They can't run away From us

Some People treat their pet animals in a very hurtful way

They do very bad punishments

They get Kept in cages For no reason

They like love
